QUALITY POLICY.

QUALITY MANAGEMENT · POLICY STATEMENT

DOC NO.	VERSION	STATUS
NXS-QMS-POL	1.0 · 2026	Draft for review

Nexus Industrial Group supplies materials, manufactured parts, and technology services that customers build into their own operations. This policy states the quality commitments that apply to everything Nexus supplies and to the suppliers Nexus relies on.

01
SECTION

POLICY STATEMENT

Nexus Industrial Group is committed to supplying goods and services that meet customer requirements, applicable standards, and legal obligations, on time and with complete documentation. Nexus maintains a quality management system to plan, control, measure, and improve its work, and holds itself and its suppliers to the requirements in this policy.

02
SECTION

COMMITMENTS

CUSTOMER REQUIREMENTS	Review every order and specification before acceptance, and confirm Nexus can meet the grade, tolerance, documentation, and delivery requirements.
TRACEABILITY	Maintain heat, lot, or serial traceability from source to delivery, with mill test reports and certificates of conformance retained for every shipment that requires them.

SUPPLIER CONTROL	Qualify suppliers before use, monitor their quality and delivery performance, and require them to meet Nexus purchase order and quality requirements.
NONCONFORMANCE	Identify, segregate, and resolve nonconforming product, notify affected customers promptly, and determine root cause before closing the issue.
CONTINUAL IMPROVEMENT	Set measurable quality objectives, review them with management at least annually, and act on customer feedback, audits, and performance data.
COMPETENCE	Make sure people doing work that affects quality are trained, qualified, and aware of how their work affects the customer.

03 SECTION

QUALITY OBJECTIVES

Nexus tracks performance against the following objectives and reviews them at management review:

- On-time delivery to the confirmed date.
- Shipments delivered without a customer quality complaint.
- Shipments delivered with complete and correct documentation.
- Corrective actions closed within the agreed time.
- Supplier on-time delivery and quality performance.

04 SECTION

CERTIFICATIONS AND STANDARDS

Nexus supplies Goods to the industry standards stated on each order, including ASTM, ASME, and API specifications where applicable. Current certifications held by Nexus are listed below. Copies are available on request.

05

SECTION

RESPONSIBILITY

Management is responsible for providing the resources to implement this policy and for reviewing its effectiveness. Every Nexus employee and contractor is responsible for the quality of their own work and for raising any issue that could affect a customer. This policy is communicated to staff, reviewed annually, and available to customers, suppliers, and interested parties at nexusindgroup.com.
